Net Income Increases to \$9.2 million;

Pro Forma RevPAR Growth of 2.9%;

Adjusted FFO increases to \$32.3 million, \$0.31 per share; Adjusted EBITDAre of \$46.7 million

Austin, Texas, May 1, 2019 --- Summit Hotel Properties, Inc. (NYSE: INN) (the “Company”), today announced results for the first quarter ended March 31, 2019.

“We are pleased with our financial results in the first quarter as strong top line growth, along with a continued focus on cost control initiatives, resulted in operating margin improvement year-over-year. - 101-guestroom Hampton Inn Santa Barbara/Goleta
- 146-guestroom Hampton Inn & Suites Minneapolis St. Paul Airport – Mall of America
- 127-guestroom Hyatt Place Dallas/Arlington
- 189-guestroom Residence Inn Salt Lake City Downtown

As a result, the Company has no remaining debt maturities until November 2022 and 86% of its total portfolio pro forma hotel EBITDA is now unencumbered. The Company funded the loan repayment with an advance from its unsecured revolving credit facility.

Non-GAAP Financial Measures

We disclose certain “non-GAAP financial measures,” which are measures of our historical financial performance. Non-GAAP financial measures are financial measures not prescribed by Generally Accepted Accounting Principles (“GAAP”). These measures are as follows: (i) Funds From Operations (“FFO”) and Adjusted Funds from Operations (“AFFO”), (ii) Earnings before Interest, Taxes, Depreciation and Amortization (“EBITDA”), Earnings before Interest, Taxes, Depreciation and Amortization for Real Estate (“EBITDAre”), Adjusted EBITDAre, and hotel EBITDA (as described below). We caution investors that amounts presented in accordance with our definitions of non-GAAP financial measures may not be comparable to similar measures disclosed by other companies, since not all companies calculate these non-GAAP financial measures in the same manner. Our non-GAAP financial measures should be considered along with, but not as alternatives to, net income (loss) as a measure of our operating performance. Our non-GAAP financial measures may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions, debt service obligations and other commitments and uncertainties. Although we believe that our non-GAAP financial measures can enhance the understanding of our financial condition and results of operations, these non-GAAP financial measures are not necessarily better indicators of any trend as compared to a comparable measure prescribed by GAAP such as net income (loss).

Funds From Operations (“FFO”) and Adjusted FFO (“AFFO”)

As defined by Nareit, FFO represents net income or loss (computed in accordance with GAAP), excluding preferred dividends, gains (or losses) from sales of real property, impairment losses on real estate assets, items classified by GAAP as extraordinary, the cumulative effect of changes in accounting principles, plus depreciation and amortization related to real estate assets, and adjustments for unconsolidated partnerships and joint ventures. AFFO represents FFO excluding amortization of deferred financing costs, franchise fees, equity-based compensation expense, debt transaction costs, premiums on redemption of preferred shares, losses from net casualties, non-cash lease expense, non-cash interest income and non-cash income tax related adjustments to our deferred tax assets. Unless otherwise indicated, we present FFO and AFFO applicable to our common shares and common units. We present FFO and AFFO because we consider FFO and AFFO an important supplemental measure of our operational performance and believe it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO and AFFO when reporting their results. FFO and AFFO are intended to exclude GAAP historical cost depreciation and amortization, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO and AFFO exclude depreciation and amortization related to real estate assets, gains and losses from real property dispositions and impairment losses on real estate assets, FFO and AFFO provide performance measures that, when compared year over year, reflect the effect to operations from trends in occupancy, guestroom rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income. Our computation of FFO differs slightly from the computation of Nareit-defined FFO related to the reporting of corporate depreciation and amortization expense. Our computation of FFO may also differ from the methodology for calculating FFO used by other equity REITs and, accordingly, may not be comparable to such other REITs. FFO and AFFO should not be considered as an alternative to net income (loss) (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends or make distributions. Where indicated in this release, FFO is based on our computation of FFO and not the computation of Nareit-defined FFO unless otherwise noted.

EBITDA, EBITDAre, Adjusted EBITDAre, and Hotel EBITDA

EBITDA

EBITDA represents net income or loss, excluding: (i) interest, (ii) income tax expense and (iii) depreciation and amortization. We believe EBITDA is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results. Our management team also uses EBITDA as one measure in determining the value of acquisitions and dispositions.

EBITDAre and Adjusted EBITDAre

EBITDAre is based on EBITDA and is expected to provide additional relevant information about REITs as real estate companies in support of growing interest among generalist investors. EBITDAre is intended to be a supplemental non-GAAP performance measure that is independent of a company's capital structure and will provide a uniform basis to measure the enterprise value of a company compared to other REITs.

EBITDAre, as defined by Nareit, is calculated as EBITDA, excluding: (i) loss and gains on disposition of property and (ii) asset impairments, if any. We believe EBITDAre is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results.

We make additional adjustments to EBITDAre when evaluating our performance because we believe that the exclusion of certain additional non-recurring or certain non-cash items described below provides useful supplemental information to investors regarding our ongoing operating performance. We believe that the presentation of Adjusted EBITDAre, when combined with the primary GAAP presentation of net income, is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results.

Hotel EBITDA

With respect to hotel EBITDA, we believe that excluding the effect of corporate-level expenses and non-cash items provides a more complete understanding of the operating results over which individual hotels and operators have direct control. We believe the property-level results provide investors with supplemental information on the ongoing operational performance of our hotels and effectiveness of the third-party management companies operating our business on a property-level basis.

We caution investors that amounts presented in accordance with our definitions of EBITDA, EBITDAre, adjusted EBITDAre, and hotel EBITDA may not be comparable to similar measures disclosed by other companies, since not

all companies calculate these non-GAAP measures in the same manner. EBITDA, EBITDAre, adjusted EBITDAre, and hotel EBITDA should not be considered as an alternative measure of our net income (loss) or operating performance. EBITDA, EBITDAre adjusted EBITDAre, and hotel EBITDA may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures and property acquisitions and other commitments and uncertainties. Although we believe that EBITDA, EBITDAre, adjusted EBITDAre, and hotel EBITDA can enhance your understanding of our financial condition and results of operations, these non-GAAP financial measures are not necessarily a better indicator of any trend as compared to a comparable GAAP measure such as net income (loss). Above, we include a quantitative reconciliation of EBITDA, EBITDAre, adjusted EBITDAre and hotel EBITDA to the most directly comparable GAAP financial performance measure, which is net income (loss) and operating income (loss).
